Mohd Uvaish

Noida, India ✉ uvaishnasir@gmail.com ☎ 9410853898 in/uvaishnasir ⬤ github.com/uvaishnasir

Full-stack developer with strong expertise in backend architecture, REST APIs, databases, and scalable full-stack systems. Experienced in building production-grade applications across Node.js, Express, Prisma, MySQL, MongoDB, and React. Skilled in debugging, system design, and end-to-end product development.

EXPERIENCE

SDE-I (Backend) | Probey Services Pvt. Ltd. | Noida | Feb 2025 - Present

• Developed and maintained production-grade **RESTful APIs** using **Node**.js, **Express**, **Prisma**, **MySQL**.
• Took end-to-end ownership of **backend** modules ensuring performance, scalability, and clean architecture.
• Integrated third-party systems including payment gateways, delivery partner APIs, Google OAuth, Meta Pixel, and geolocation services.
• Worked across full stack using React to enhance UI/UX and improve application performance.

PROJECTS

GOODBELLY | goodbelly.in
Multi-vendor food delivery platform (similar to Zomato/Swiggy)

• Led 90% of platform development including backend architecture, database design, API development, Frontend development.
• Built multi-vendor cart system, single-payment multi-order flow, coupon engine, reviews, geolocation-based recommendations.
• Designed secure authentication (JWT, Google OAuth) for users, vendors, admins.
• Developed dynamic React features: Checkout, Product Detail, Filters, Vendor Panel.
• Implemented **personalized subscription**-based meal plans where users can customize their meals and manage their recurring orders seamlessly.
• Built a **real-time consultation module** where users can connect with health experts for personalized meal advice and diet plans.
Technologies: Node.js, Express, Prisma, MySQL, React.js, JWT, Cloudinary, AWS, Google OAuth.

CRAFTKONA | craftkona.com
Multi-vendor e-commerce platform for handcrafted goods

• Built and maintained backend features including product management, authentication, and secure order handling.
• Implemented APIs using **Node.js**, **Express**, and **MongoDB**, with admin dashboard support.
• Supported frontend integration and performance optimization

HOTLINE | Service Provider Marketplace

• A platform where multiple hotliners list beauty & home services (nail art, grooming, etc.) and users can book services.
• Developed both backend (Node.js, Express, Prisma, MySQL) and frontend (React).
• Implemented service listings, booking flows, vendor authentication, availability management.
• Created admin features including vendor approval, service control, commission tracking.

SWCY | swcy.in
E-commerce platform for health and wellness products

• Handled backend systems including product management, user authentication, order workflows, and discount modules.
• Created scalable APIs and managed database schemas using **MySQL** and **Express**.
• Integrated admin features for inventory control and order tracking.
Technologies: Node.js, Express, MySQL, React.js, JWT

EDUCATION

B.Tech in Computer Science & Engineering | IMS Engineering College | Ghaziabad | 2020-2024 | CGPA-8.15

SKILLS

Languages: JavaScript, TypeScript, C/C++, Python | Backend: Node.js, Express.js, Prisma | Frontend: React.js, Redux, HTML, CSS

Databases: MySQL, MongoDB | Cloud & Storage: AWS (S3), Cloudinary | APIs & Integrations: REST APIs, Payment Gateways, Shipping/Delivery

APIs | Tools: Git, GitHub, Bitbucket, Postman, Jira, VS Code | Concepts: DSA, OOP, DBMS, MVC Architecture, Debugging, Agile Development

CERTIFICATIONS

Data Structures & Algorithms – Devsnest | **MERN Stack Development** – CETPA Infotech Pvt. Ltd.

Operating Systems and You – Coursera | **Cloud Computing Basics** – NASSCOM Foundation

ACHIEVEMENTS

Cooperate in Quality Search Test 2019 by R. V. Institute of Technology and won "Smart Phone".

Achieved 1st position in 12th standard, showcasing academic excellence.
